

Purified Water - The Difference

Enhance the Quality of your Water through Reverse Osmosis...

Enjoy Better Beverages

- Tea is Brighter in Colour and leaves no annoying film in your cup
- Coffee has a Richer Flavour while using fewer grounds
- Juices are More Flavourful and require less concentrate

Crystal Clear Ice Cubes

- Expect hard ice cubes that are so clear you can see right through them
- They taste better and don't leave flaky sediment in your glass

Delicious Drinking Water

- Pure and Safe Water that Tastes Great
- You'll Enjoy the 6 to 8 Glasses a Day Required for Good Health

Better Cooking

- Enhances the Natural Taste of Foods Cooked in Water
- Brings out the Natural Flavours of Vegetables, Soups and Pasta
- Protects Appliances from Damaging Scale
- No more scale buildup in your tea kettle, coffee maker or humidifier
- Appliances Last Longer and will Never Need De-Scaling Again

Essential to Good Health

- Removes the majority of contaminants in tap water and reduces long-term health effects caused by water contaminants
- Water is critical for nearly every bodily function
 - Boosts Energy & Performance
 - Aids Proper Digestion, Circulation & Waste Elimination
 - Helps Aid with Weight Loss
 - Maintains Healthy Skin & Muscle Tone
 - Helps Alleviate Symptoms of Common Ailments

Hydration of the Body

- Reverse Osmosis Water Hydrates the Body Quickly
- Very Beneficial during Exercise and Sports Activities

Contaminant Removal

- Chlorine, Chemicals, Lead, Heavy Metals & Residual Oils
- Odours, Inorganic Minerals, Herbicides, Pesticides & Sodium
